The Equity Initiatives Framework was created as part of the Critical Interventions Framework Part 2: Equity Initiatives in Australian Higher Education: A review of evidence of impact. Bennett, A., Naylor, R., Meller, K., Brett, M., Gore, J., Harvey, A., Munn, B., James, R., Smith, M., and Whitty, G. (2015). This was funded by a grant from the Australian Government Department of Education and Training. The grant was made under the Higher Education Participation and Partnerships Program (HEPPP). The Equity Initiatives Framework was further developed into an Equity Initiatives Map to enable program level analysis of HEPPP expenditure and effort as part of the 2016 Equity Fellowship Project by Nadine Zahabas, Deakin University. The Fellowship was funded by a grant made under HEPPP from the Australian Government Department of Education and Training and carried out under the stewardship of the National Centre for Student Equity in Higher Education (NCSEHE) at Curtin University.
